

# **FACT SHEET**Second Quarter Fiscal 2013

**Applied Materials** is the global leader in providing innovative equipment, services and software to enable the manufacture of advanced semiconductor, flat panel display and solar photovoltaic (PV) products. Our technologies help make innovations like smartphones, flat screen TVs and solar panels more affordable and accessible to consumers and businesses around the world.

#### COMPANY PROFILE

Applied Materials supplies the manufacturing equipment and services that help produce virtually every advanced semiconductor chip and flat panel display in the world; its technologies are also helping to accelerate the global adoption of PV solar energy. Applied is focused on helping customers solve their high-value problems with differentiated solutions to provide them with a competitive advantage in the marketplace.

Stock Ticker  Market Cap*	NASDAQ: AMAT \$17.8 billion
Fiscal 2012 Revenue	\$8.7 billion
Fiscal 2012 R&D	\$1.2 billion
Founded	Nov. 10, 1967
Headquarters	Santa Clara, California
Global Presence	89 locations in 19 countries
Manufacturing, R&D Locations	China, Germany, Israel, Italy, Singapore, Taiwan, United States
Employees**	~13,600 worldwide
Patents	~10,500 issued

Fiscal year end: last Sunday in October

#### CORE COMPETENCIES

## Thin Film Engineering

Thin films are used to create electronic structures as small as 1/2,000th the width of a human hair. These films are formed, deposited, shaped and measured by patented Applied Materials processes and tools with atomic levels of precision and control.

## Commercializing Technology

Applied Materials creates sophisticated manufacturing equipment for high volume production, helping to drive down the cost of electronic devices.

# Global Reach

Applied Materials has the intellectual capital, financial resources and capability to help customers integrate and manufacture advanced technology around the world.

# REPORTING SEGMENTS

#### Silicon Systems

- Global leader in innovative equipment for the manufacture of advanced semiconductors
- Equipment at virtually every semiconductor fab in the world, enabling the production of advanced microchips

#### Display

- Using expertise in depositing thin films on large-scale glass panels to lower the cost of flat panel displays
- Extending core equipment technology into new mobility segments

#### **Energy and Environmental Solutions**

- Number one equipment supplier to the solar PV industry
- Applied powers the c-Si roadmap by driving down the cost per watt for solar energy and balance of systems cost

#### Global Services

- Provides semiconductor, display and solar customers with solutions that maximize output and efficiency
- Largest supplier of software for automating semiconductor, display and solar factories

<sup>\*</sup>As of May 14, 2013 \*\* Excluding temporary and interns

# FINANCIAL FUNDAMENTALS

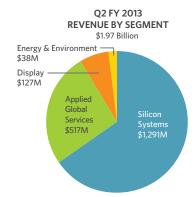

# Applied Materials has...

- Over 40 years of experience navigating market cycles to preserve capital while investing for the future, even during industry downturns.
- A quarterly cash dividend and a flexible stock buyback program that returns excess cash to stockholders.

#### CONSOLIDATED FINANCIAL STATEMENT (\$MILLIONS)\*

INCOME STATEMENT	2012	2011	2010	2009	2008
Net Sales	\$8,719	\$10,517	\$9,549	\$5,014	\$8,129
Gross Margin %	38.0	41.5	38.9	28.5	42.4
